Contents of Volume 241

Vol. 241 Nos. 1–2 **January 15, 2001**

Preface

The development of weather radar as a research and operational tool for hydrology in South Africa
D.E. Terblanche, G.G.S. Pegram and M.P. Mittermaier 3

High resolution space–time modelling of rainfall: the "String of Beads" model
G.G.S. Pegram and A.N. Clothier 26

A methodology for the estimation of short duration design storms in South Africa using a regional approach based on L-moments
J.C. Smithers and R.E. Schulze 42

Practical application of probabilistic approaches to the management of water resource systems
M.S. Basson and J.A. Van Rooyen 53

Evaluation of river losses from the Orange River using hydraulic modelling
R.S. McKenzie and A.R. Craig 62

Estimation of the sustainable yields of boreholes in fractured rock formations
G.J. van Tonder, J.F. Botha, W.-H. Chiang, H. Kunstmann and Y. Xu 70

Hydrochemical characteristics of aquifers near Sutherland in the Western Karoo, South Africa
S. Adams, R. Titus, K. Pietersen, G. Tredoux and C. Harris 91

A procedure for deriving qualitative contaminant attenuation maps from land type data
O.T.N. Sililo, J.E. Conrad, T.E. Döhse, G. Tredoux and M.H. du Plessis 104

The water balance of a first order catchment in the montane grasslands of South Africa
C.S. Everson 110

Maximizing precipitation utilization in dryland agriculture in South Africa — a review
A.T.P. Bennie and M. Hensley 124

Providing hydrological information and data analysis tools for the determination of ecological instream flow requirements for South African rivers
D.A. Hughes 140

Vol. 241 Nos. 3–4 **January 31, 2001**

Groups and neural networks based streamflow data infilling procedures
M. Khalil, U.S. Panu and W.C. Lennox 153

Dispersion, retardation and scale effect in tracer breakthrough curves in karst conduits
M. Hauns, P.-Y. Jeannin and O. Atteia 177

Use of stream sediment chemistry to predict trace element chemistry of groundwater. A case study from the Bisagno valley (Genoa, Italy)
L. Marini, M. Canepa, F. Cipolli, G. Ottonello and M.V. Zuccolini 194

Post-blackening approach for modeling periodic streamflows
V.V. Srinivas and K. Srinivasan 221

Assessing the effectiveness of hydrological similarity measures for flood frequency analysis
A. Castellarin, D.H. Burn and A. Brath 270

Numerical investigation of lake bed seepage patterns: effects of porous medium and lake properties
D. Genereux and I. Bandopadhyay 286
